COUNTY TECHNOLOGY IMPROVEMENTS

Functional Area: Management Services
Department: Various County Departments

Project Description/Justification:

The Technology Improvement Program (TIP) provides for the orderly and systematic acquisition of information technology improvements and represents the county's ongoing commitment to applied technology that supports its eight strategic goals.

Funds are allocated in the county's Capital Improvement Program specifically for the Technology Improvement Program. The Information Technology Steering Committee, consisting of representatives from all functional areas of county management, assesses and prioritizes specific technology needs for all departments based upon departmental requests, the urgency and scope of identified projects, and available funding. The committee is responsible for the recommended annual Technology Improvement Program.

The projects selected will enhance the efficiency and effectiveness of a variety of county operations and services to county citizens. A comprehensive listing of the entire TIP is included in Appendix. B.

Location/Site Status:

Multiple county facilities.

Estimated Project Costs:

The estimated project cost is \$6,400,000 over seven years. Specific projects to be completed in FY2004 – FY2006 are shown on the following page.

Operating Cost Detail:

Total operating costs have not been determined at this time.

Impact If Not Completed:

The county will risk falling behind in technological advances critical to operational processes and efficiencies and in its services to citizens.
